## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☐ Responsive to communication(s) filed on 08 November 2007.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 25-30, 32-34, 37-42, and 44-46 are rejected under 35 U.S.C. 102(e) as being anticipated by Seddigh et al. (6,973,035).

As per claims 25 and 37, Seddigh et al. disclose a method of attempting to construct a path through a packet network from a source host address (fig. 3/no. 310, fig. 10/no. 1010) to a destination host address (fig. 3/no. 320, fig. 10/no. 1020), wherein signaling to an admission control device (fig. 3/no. 330a, 340a, fig. 10/no. 1030a, 1040a) for controlling admission to a section of the path, and returning information on a range of host addresses controlled by the admission control device (fig. 4, fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 26 and 38, Seddigh et al. disclose the claimed invention (fig. 3/no. 340a, 330b...., fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 27 and 39, Seddigh et al. disclose the claimed invention (fig. 3, col. 3/ln. 23-col. 4/ln. 29).

As per claims 28 and 40, Seddigh et al. disclose the claimed invention (col. 3/ln. 23-col. 4/ln. 29).

As per claims 29 and 41, Seddigh et al. disclose the claimed invention (fig. 4, fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 30 and 42, Seddigh et al. disclose the claimed invention (fig. 4, fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 32 and 44, Seddigh et al. disclose the claimed invention (fig. 4, fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 33 and 45, Seddigh et al. disclose the claimed invention (fig. 4, fig. 5-9, col. 3/ln. 23-col. 4/ln. 29).

As per claims 34 and 46, Seddigh et al. disclose the claimed invention (fig. 10, fig. 14-15, col. 9/ln. 12-col. 10/ln. 37).

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 35-36 and 47-48 rejected under 35 U.S.C. 103(a) as being unpatentable over Seddigh et al. (6,973,035).

As per claims 35-36 and 47-48, Seddigh et al. disclose such step of hopping from admission control devices but not specifically a rate as claimed. However, such is notoriously well known in the art that the examiner takes Official Notice of such. Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention for Seddigh et al. to utilize such data rate, well known, in order to provide an appropriate delay for traffic flow to propagate through the mesh route.

***Allowable Subject Matter***

5. Claims 31 and 43 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 11/08/07 have been fully considered but they are not persuasive.

The Applicant stated that "Seddigh fail to disclose 's the limitation of returning information on a range of host addresses controlled by the admission control". In response to the Applicant, Seddigh (at least col. 7/ln. 33-col. 9/ln. 3, col. 10/ln. 23-65) disclose that such range of host addresses added to the RESV and PATH messages.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
